# Park & Forestry Improvements

## Forestry Overview

Our primary focus since EAB was first detected in 2012 was to remove hazardous trees and begin replanting. This was our last year of major removals stemming from EAB. We have done this in several phases based on the level of hazard and potential targets. Pruning has been done mainly on our smaller trees to promote proper structure for the future. Now that removals will slow down it will give us an opportunity to focus on the entire tree inventory. Our objective is to have a pruning cycle of seven years.

Removed 244 street trees mainly comprised of Ash and Norway Maple.

Planted 326 street trees consisting of 20 different varieties.

Structurally pruned over 500 street trees.

Performed soil injections on 250 Ash trees of 10" or less.

Removed 100+ trees consisting of Ash, other declining hazardous trees and invasive species from Guenther pond.

Removed 125 Ash trees from Upper lake park

Planted 175 native shrubs (7 varieties) and 85 trees (20 varieties) throughout Guenther pond and Upper lake.

Planted 650 (24 varieties) of seedling and sapling trees in the city nursery with a local Boy Scout group.

Planted over 700 native seedlings in Birchwood Hills nature preserve with the high school environmental studies group.

Were awarded two grants in the amounts of \$5,000 (Bay-Lake Regional Planning Commission) and \$25,000 (Wisconsin DNR) to assist in our planting and nursery startup.

## Parks Overview

There are 34 designated parks within the city covering 160 acres. Some of this is unmanaged natural areas but the majority is maintained by our staff. This consists of one working superintendent, one full time employee, one 50% shared employee and 9 seasonal workers. During the growing season much of our time is dedicated to mowing grass and maintaining plants. We work in cooperation with the street department tree planting trees and with tree removals. Listed below gives points to what we have done over 2018.

Performed inspections on all play equipment and structures.

Mowed and maintained turf areas for 32 parks.

Planted over 100 flats of annual and perennial flowers.

Maintained (weeding, watering and pruning) over 50 planting beds.

Maintained 50+ large annual flower pots throughout the city.

Constructed and installed 10 new signs for park entrances.

Cut back invasive species from several parks and cleared overgrowth from north beach stairs.

Maintained and held several beach cleanups for North and South beaches.
